SCHOLARSHIP AWARDEE CONDITIONS
THE NORRIS POSTGRADUATE RESEARCH SCHOLARSHIP

1. Scholarship will support a Higher Degree by Research (HDR) candidate pursuing a PhD in applied ecology conducted through the Institute for Applied Ecology (IAE).

2. Scholarship will support 3 years of HDR study in a University of Canberra PhD degree course on a full-time basis only.

3. Scholarship funding is at an equivalent level to Australian Postgraduate Award (APA) stipend and allowances in any given year.

4. Scholarship is available to a domestic or international HDR candidate who is eligible for admission to a PhD degree course at the University of Canberra.

5. A domestic candidate must be in receipt of RTS funding to cover the cost of tuition fees.

6. An international candidate may use the Scholarship to fund a stipend or if already in receipt of a stipend from other sources can request to use the Scholarship toward the cost of tuition fees up to and not exceeding the value of the Scholarship. This request will be considered by the IAE Selection Committee.

7. Scholarship will be supported by additional funding through the IAE to fund the cost of overseas health insurance for an international recipient.

8. Scholarship recipient may request additional funding to support the cost of relocation (one occasion only).

9. Scholarship recipient may request additional funding to support the cost of thesis expenses.

10. Any changes in candidature as a result of exceptional circumstances will be considered by the IAE Selection Committee in alignment with University of Canberra policy.

11. Scholarship recipient will abide by conditions and requirements of HDR candidature at the University of Canberra.

12. This Scholarship is not transferable outside of the University of Canberra.
